github.com/Sachin2076 | staking-dapp-cn6035-6l2h.vercel.app

PROFILE

Final-year BSc Computer Science student at the University of East London, on track for a First Class Honours degree. Experienced in building full-stack web applications and decentralised applications (DApps) using React, Node.js, Solidity, and ethers.js. Deployed a live Ethereum staking platform on the Sepolia testnet with smart contract security, modular React architecture, and cloud hosting on Vercel. Comfortable using AI tools to accelerate development. Strong communicator with hands-on retail and academic team experience.

TECHNICAL SKILLS

Blockchain: Solidity, Hardhat, ethers.js, MetaMask, Sepolia Testnet, Smart Contracts

Frontend: React 18, JavaScript ES6+, HTML5, CSS3, Responsive Design, REST APIs

Tools: Git, GitHub, Node.js, ESLint, Prettier, Vercel, Netlify, OpenAI API

PROJECTS

Decentralized ETH Staking Platform

github.com/Sachin2076/staking-dapp-cn6035 | staking-dapp-cn6035-6l2h.vercel.app

Solidity · Hardhat · React · ethers.js · Sepolia Testnet · Vercel

- Full-stack DApp where users stake ETH, earn 10% APR rewards on-chain, and withdraw after a lock period — deployed live on Sepolia testnet
- Smart contract with reentrancy guard, Checks-Effects-Interactions security pattern, and minimum stake validation; 11 passing Hardhat tests
- Refactored 2,000-line monolithic React app into 18 modular components with service layer; integrated CoinGecko API for live ETH price chart

Nexus Learn — AI Educational Chatbot

github.com/Sachin2076/AI-CHATBOT-NEXUS-LEARN

React · Node.js · OpenAI API · JavaScript · REST APIs

- AI-powered chatbot providing real-time educational support by answering student questions and explaining concepts using the OpenAI API
- Built full-stack with React frontend and Node.js/Express backend; designed clean chat interface with message history and responsive layout

Meal Mingle — Recipe Discovery App

meal-mingle.netlify.app | github.com/Sachin2076

React · JavaScript · REST API · CSS3 · Netlify

- Recipe discovery app with search, category filtering, and dynamic meal detail views powered by a public REST API
- Deployed to Netlify with continuous integration from GitHub; fully responsive across mobile and desktop

EDUCATION

BSc (Hons) Computer Science — University of East London

2023 – 2026 | Expected: First Class Honours

- Key modules: Blockchain Technologies, Web Development, Software Engineering, Data Structures & Algorithms

Web Development Qualification

Completed 2023

WORK EXPERIENCE

Customer Team Member — Co-op Food, Lower Marsh Lane

2023 – Present

- Delivered consistent customer service in a fast-paced retail environment handling transactions, stock, and daily store operations
- Built strong communication, reliability, and teamwork skills across rotating shifts — directly applicable to collaborative development teams
